Adobe Premiere Pro, CapCut

Graphic Design: Adobe Photoshop,

Adobe Illustrator, Canva, Figma

SOFT SKILLS

Adaptability

Creativity

Strategic Thinking

Communication

Attention to Detail

Collaboration

PROFILE

Motivated and detail-oriented Computer Science student specializing in Software Development, with hands-on experience in IT support, web development, and digital transformation projects. Passionate about leveraging technology to solve business challenges and enhance efficiency. Demonstrated adaptability, analytical thinking, and collaboration through academic, freelance, and internship projects.

EXPERIENCE

Software Development Internship | Winville

September 2025 – Present

- ✓ Contributed to 6+ projects within two months, demonstrating adaptability and rapid learning.
- ✓ Enhanced technical proficiency in PHP, Python, and JavaScript.
- ✓ Developed interactive 3D browser-based games using Three.js.
- ✓ Assisted in graphic design and digital media tasks, including poster creation and editing
- ✓ Improved code efficiency and functionality through debugging and optimization.
- ✓ Contributed to the design and development of a SIEM tool, supporting log ingestion, event correlation, and alerting mechanisms.

Freelancing

April 2020 - Present

- ✓ Installed, optimized, and repaired 50+ computers, ensuring smooth system performance.
- ✓ Provided IT support and troubleshooting for clients, minimizing downtime significantly.
- ✓ Edited 60+ videos for clients using Filmora, Premiere Pro, and CapCut.
- ✓ Designed multiple logos, posters and brand identities, including a brand technical pack for Tayari Transitions.

EDUCATION

Namibia University of Science and
Technology (NUST)
2023-Present
Bachelor of Computer Science
(Software Development)

Academia Secondary School
2022
Advanced Subsidiary Level (Biology,
Chemistry, English)

HOBBIES

Video Editing
Chess/Checkers
Reading
Fitness & Gym
Cooking
Outdoor Activities (Hiking/Camping)

ACHIEVEMENTS

Rosatom Global Hackatom Namibia
2025 – 3rd Place Winner

AISOD AI HACKATHON 2025 – Winner

IT Support Technician | Van Rhyn Primary School

Contract Basis

- ✓ Provided technical support for 30+ staff members, resolving software and hardware issues.
- ✓ Assisted in setting up and maintaining network connectivity across campus.
- ✓ Supported annual teachers' seminars in 2022 and 2023, ensuring seamless technology use.

Remote Technical Intern | Tayari Transitions

December 2024 – March 2025

- ✓ Researched & Recommended Web Builders: Evaluated and compared efficient website-building tools for scalability, performance, and ease of use.
- ✓ Website Design (Figma): Designed the company website prototype with a focus on UI/UX, branding consistency, and user engagement.
- ✓ Branding & Graphic Design: Created and refined branding assets (logos, avatars, and visual identity) to strengthen brand presence.
- ✓ Tech Implementation for Meetings: Integrated tools like Meet Geek to improve virtual meetings, transcription, and team collaboration.

PROJECTS

Tayari Transitions Brand Package

- Designed a complete branding package, including logo, color scheme, and visual identity.
- Ensured a consistent and professional look for the brand across digital and print platforms.

ARC Planners & Investments CC Brand Design

- Designed a complete brand identity package, including a modern, professional logo, multiple logo concepts, mockups, and a custom letterhead. Focused on capturing the company's values of growth, strength, and reliability through clean, minimalist design.

Van Rhyn Primary School - Online Registration Platform

<https://vanrhynps.netlify.app/>

- Built a modern registration system enabling parents to apply online with document uploads and realtime tracking. Standout features include an admin dashboard, scalable MongoDB database,
- Cloudinary integration, and a fast Next.js frontend deployed via Netlify. Prioritized usability, performance, concurrent registration and smooth admin control.

KEIDF Annual Teachers Seminar Registration Platform

<https://keidf.netlify.app/>

- Built a full-stack registration and participant management platform using Next.js and MongoDB.
- Designed an intuitive, responsive user interface for event participants and administrators.
- Implemented secure backend APIs for form submission, authentication, and data management.
- Optimized performance and database queries for fast, reliable data retrieval.
- Deployed the platform for real-world use, handling concurrent live user interactions and data exports.
